To an unnamed  
dear, as a child  
I was unable to  
tell the difference  
between what "I"  
"really" wanted and  
what she wanted <sup>me</sup> to  
want and I therefore  
went.

of 1945,  
for July and August 3 tests of nuclear weapons  
were conducted - 2 of them in ~~populated~~ population  
centers - revealing ~~the~~ demonstrating to all  
posteriorly everything that has been ever really  
needed to know about nuclear weapons for the  
purpose of arriving at appropriate ~~able~~  
nuclear policy: 1) that ~~these~~ <sup>small quantities</sup> the uranium isotope  
U-235 or PU-239 could produce explosion with  
1000 x <sup>greater</sup> the power of the largest chemical bombs  
of WWII; and (2) that ~~these~~ <sup>these</sup> men in power - in  
a dramatic state - ~~under~~ <sup>under</sup> were willing, - at  
least some circumstances [just how Henry Truman & his  
top advisers saw their circumstances and the being on  
the dinner is still big controversy] <sup>to</sup> use these  
bombs to kill, <sup>in a flash</sup> hundreds of thousands of people.

\* (The ~~fact~~ <sup>fact</sup> was apologetic about this has led us  
to under-rate the risks of the possession of  
uses of "powerful, destructive" (or at least, <sup>powerful</sup> to  
the US) governments; but it was also <sup>also</sup> ~~also~~ <sup>under</sup>  
those risks <sup>below</sup> what they would be if a true  
historical account had been published and the  
decision had nevertheless been accepted of the public.  
[Higher than if there had been a true account,  
leading to condemnation and greater constraints on the  
use <sup>building</sup> <sup>of</sup> <sup>the</sup> <sup>powerful</sup> <sup>weapons</sup>].

[Dad bst — or his advisors — draw the lesson from by 1945 that the probable did — that the Bomb had ended the war [Churchill claimed to believe this; did he?], that it had been necessary <sup>for this, to</sup> to avert invasion, that it had the same line

or did the just pretend to believe this, to justify war, and to justify unjustified support for future reliance on it, instead of seeing it banished (after WWII)?

"Remnants" imply (but don't normally say) that officials did not draw the same lessons / truths as public about the moral for, or effects of, the Bomb in WWII:

If we were subject to false expectations about future value: but not subject to public's illusion about present effectiveness as value (coming after US bombing, on top of US continued cap, blockade, and SC entry).

Kiss about Hiroshima

- are not the worst of myths to be  
believed, & accepted as justification

- Better than if truth were accepted

- If our USG threats would not be seen  
necessitating as bluffs

or be kept secret (then, less  
credible)

- they would be seen by US public and  
admirals as <sup>highly</sup> credible,

because they would be acceptable  
(aside from risk of retaliation.)

- weapons would have been <sup>first</sup> used,  
at DBP? (But, French...)

- Laos '61-62

- VN

- KOREA (ask: <sup>was to</sup> Wf not ? really ?  
GA)

- China civil war;

Terrain Straits

(why least worst?)

So MCB is partly right - considerable selection,  
after Nagasaki (not before). DUE TO MYTH?  
OR?

Power N

How does Power corrupt?

How does Dope (<sup>Heroin</sup> Cocaine) corrupt?

- 1) It addicts. (as does secret information)  
Habituates  
Makes one dependent  
Requires longer doses - to feel O.K.  
Focuses attention, suppresses...

- 2) It self-glorifies  
aggrandizes  
self-inflates  
crack, coke  
(less, gross! MDMA!  
acid!  
the all!

- leads to identifying interests of self  
(in position,  
power  
image/adulation  
adoration  
(and life, comfort)

with <sup>the</sup> interests of a larger "body",  
group nation  
cause coop.

(which may give one the power)

- leads to discounting the importance, worth, of  
others: subjects of one's power; less powerful  
subordinates  
(enemy crisis (not, leaders!))

Lies/Truth of 20th Century

Hiroshima: when does it fit?

(S) If <sup>Hiroshima</sup> Myth were true — would it be justified?  
(Weiss) (B) Think "reality": ? / as most Americans believe

[If CV were guilty: are his lies justified?  
What of lawyers? additionally culpable?  
finches?  
blacks?

- Stimson / Commit: Would Hiroshima have been  
justified/obligatory if previous had been <sup>from his class</sup> different?  
e.g. - 40,000 US cas.  
- offer to Emperor <sup>pers.</sup> (S. 1948)  
- SU ~~not~~ a consideration  
- little consideration

(His lies + omissions suggest not;  
and that lesson has had a effect (good!))

Wf did British object to use of A-bomb in Korea?  
Would they have done so in early 1949?  
Before SU A-Bomb:

Would Stalin have OK'd invasion " " " ?!

What of: DBP; Taiwan Straits?

Is was there (low) determiner of OS RV?
